**MEMORANDUM IN SUPPORT OF MOTION OF THE DEFENDANT, LAFLEUR
CRANE SERVICE, INC. TO COMPEL DISCOVERY RESPONSES FROM
DEFENDANT WOODS HOLE, MARTHA'S VINEYARD AND NANTUCKET
STEAMSHIP AUTHORITY**

On May 30, 2006, the defendant LaFleur Crane served its second set of interrogatories and a second request for the production of documents upon the Steamship Authority. See Exhibits A and B. The interrogatories and document production requests at issue address the operation of video surveillance equipment which purportedly videotaped portions of the accident which forms the subject matter of the plaintiff's complaint.

The plaintiff, an employee of the Steamship Authority, alleges he was struck by a motor vehicle owned by the defendant LaFleur Crane. The vehicle was backing onto a freight ferry and according to the plaintiff the accident occurred at or near the point where the transfer bridge meets the vessel. Also at issue in this matter is whether the employee of LaFleur Crane was authorized by a Steamship employee to board the vessel.

Lorin Clarkson, an employee of the Steamship Authority, testified that a video camera is located at the top of the transfer bridge that looks down upon the transfer bridge. See Deposition of Lorin Clarkson, page 35, attached as Exhibit C. The camera points towards the dock which is the area from which the LaFleur vehicle was entering the vessel. Id. page 36. According to Mr. Clarkson's testimony, the video camera would have caught the truck waiting to be loaded and five to six feet on the transfer bridge. Id. page 37. He denied the video camera would have captured accident where it occurred.

The defendant LaFleur Crane contends that the videotape and its subsequent destruction are discoverable. Pursuant to Rule 26(b)(1), a party may obtain discovery of any matter not privileged relevant to any claim or defense. Relevant information does not need to be admissible at trial as long as the discovery request is reasonably calculated to lead to the discovery of admissible evidence. Relevance is defined as "having any tendency to make the existence of any fact that is of consequence to the determination of an action more probable or less probable than it would be without the evidence." See Fed. Rules of Evidence, Rule 401.

On November 1, 2006, counsel for the defendant LaFleur Crane forwarded correspondence to the Steamship Authority's counsel requesting the Steamship Authority provide responses within the next 14 days. Counsel for the Steamship Authority responded on November 27, 2006 advising that the surveillance video in question had been deleted but responses were forthcoming. See Exhibit D.

CONCLUSION

Wherefore, the defendant LaFleur Crane requests this court order the defendant Steamship Authority to respond to its discovery requests within the next 14 days.

DEPOSITION OF LORIN CLARKSON, taken
in behalf of the Defendant, Lafleur Crane,
pursuant to the applicable provisions of the
Massachusetts Rules of Civil Procedure, before
Sandra A. Viera, Court Reporter and Notary
Public within and for the Commonwealth of
Massachusetts, at the Woods Hole Steamship
Authority, One Railroad Avenue, Woods Hole,
Massachusetts, on Thursday, December 7, 2006,
commencing at 10:00 a.m.

LAPLANTE & ASSOCIATES, INC.

(508) 999-7499

1 Q. When was that?

2 A. Shortly after the accident. I don't
3 have a date.

4 Q. Have you ever seen that statement?

5 A. No.

6 Q. And are you aware that there's
7 cameras that tape the area of the ferry and
8 the dock?

9 A. Yes.

10 Q. Do you know where those cameras are
11 located?

12 A. There was one on top of the transfer
13 bridge there that views, you know, the bottom
14 half of the transfer bridge; and there's a
15 couple up on the building that make loops.

16 Q. Where did -- can you draw a red
17 circle where the one on the transfer bridge
18 is?

19 A. Well right -- right where the --
20 where the bridge and the, uhm, boat meet,
21 there's a superstructure. Up above the
22 superstructure, there's a camera in the middle
23 of that that looks down onto the transfer
24 bridge.

1 Q. And I know -- can you draw a circle
2 where it is? I understand it's higher up off
3 the transfer bridge?

4 A. It would be in the middle of the boat
5 -- middle of the -- you know, dead center on
6 the transfer bridge.

7 Q. Can you draw an arrow where the --
8 the direction of where that camera would point
9 at?

10 A. Dock side.

11 Q. And then you said there's cameras on
12 the top of the building?

13 A. Well the building's up here. And the
14 problem with that is it's on the corner here,
15 but we have a shelter here for our customers
16 and that -- and the uhm, passenger loading
17 area blocks out seeing any of this down here.
18 This is mainly for this area.

19 Q. And so as far as you know, only that
20 one camera over the bridge would show the
21 general area where the accident happened?

22 MR. CHIARELLO: Objection. You
23 can answer.

24 A. Oh, uhm, it doesn't show -- the

1 accident happened back here. This only shows
2 from like where this building is to maybe
3 five, six feet onto the transfer bridge.

4 Examination by Mr. Gleavy:

5 Q. I'll ask a different question.
6 That's -- that's the only camera that would
7 have shown, as far as you know, the vehicle,
8 the pickup truck, that was backing up on to
9 the --

10 MR. CHIARELLO: Meaning the
11 camera on the transfer bridge?

12 MR. GLEAVY: Correct.

13 A. The camera on the transfer bridge
14 would have caught the truck sitting waiting
15 and then it would have caught it, again, five,
16 six feet into the transfer bridge.

17 There's nothing on that would
18 catch it going onto the boat or where the
19 accident happened.

20 Examination by Mr. Gleavy:

21 Q. Did you ever see the videotape of
22 this incident?

23 A. I didn't.

24 Q. Do you know if anyone ever has?

Our File No. 17823-17

Dear Mr. Chiarello:

We are writing in the hopes of resolving some outstanding discovery issues in this matter.

We have yet to receive answers to our second set of interrogatories or a response to our second request for the production of documents. These were forwarded to your office on May 30, 2006. In order to avoid filing a motion to compel, we would request responses within the next 14 days.

Attorney Berg had previously indicated his intent to conduct a 30(b)(6) deposition of the Steamship Authority relative to the customs, practices, and procedures for maintaining videotapes as well as the Steamship Authority's decision to destroy any videotapes made on the date of the incident. Please be advised that we would intend to go forward with this deposition.

As previously discussed, we have yet to receive a copy of Mr. McBride's employment file which you had previously agreed to produce. Please advise when we can expect to receive a copy of the employment file.

Finally, Attorney Berg and I are available on the following dates to conduct the depositions of Simone Ramos, Michael Dawicki, Lorin Clarkson, Jason Esposito as well as someone from the Steamship Authority on the issue of the videotapes: November 17th and 30th, December 1st, 13th, 14th, 15th, 20th, and

Gentlemen,

It is my understanding that the following depositions need to be obtained: defendant's 30(b)(6), Lorin Clarkson, Michael Dawicki, Semiao Ramos, and Jason Esposito. I will produce Clarkson, Dawicki and Ramos, who are still employed by the defendant. I would appreciate receiving your deposition availability for December 2006 as soon as possible. Upon receipt, I will determine the witnesses' availability and revert.

As for the surveillance tape, I have been advised that it was deleted by the surveillance company engaged by the defendant. However, I'm still gathering all of the facts surrounding its deletion. I will respond to the co-defendant's Interrogatories shortly and prior to the foregoing depositions.
